## Telecom Handhole Chamber

FCST-TH-SMC04 Telecom Handhole Chamber is meticulously engineered to offer comprehensive protection, storage, equipment installation, and maintenance solutions for the underground placement of optical fiber splice boxes and cable products. This product boasts not only high stability, an extended service life, and exceptional pressure resistance, but also facilitates easy assembly.

- Excellent corrosion and weather resistance.
- Good electrical insulation and flame retardancy.
- Depth can be stacked according to requirements.
- Lightweight design using SMC composite materials.
- Complies with EN124 Standard .(A15(1.5T)/B125 (12.5T))
- Prefabricated structure reduces on-site construction costs.
- Internal Dimensions: 424\*314\*376.5mm(16.693"x12.363"x14.823")
- Transverse and vertical cross stiffeners are arranged around the outer side of the shaft, also be closely combined with the rammed soil layer. It is not easy to move and loosen after rolling.

**EN124**

### Product Specifications

| Construction                    | Description         |
|---------------------------------|---------------------|
| Executive Standard              | EN124               |
| Material                        | SMC                 |
| Manhole Cover Load Grade        | A15   B125          |
| Length                          | 424.00mm   16.693in |
| Width                           | 314.00mm   12.363in |
| Depth                           | 376.50mm   14.823in |
| Weight                          | 15kg                |
| Flame Retardant Grade           | V0                  |
| Environmental Requirements LOGO | Meet ROHS Available |
| Working Temperature             | -40°C~+65°C         |
| Storage Temperature             | -40°C~+70°C         |
| Service Life                    | 30 years            |

## Product Size

| External Size(L*W*D)                       | Internal Dimensions(L*W*D)                   | Manhole Cover Load Grade |
|--------------------------------------------|----------------------------------------------|--------------------------|
| 495*369*407mm<br>(19.489"x14.528"x16.024") | 424*314*376.5mm<br>(16.693"x12.363"x14.823") | A15(1.5T)   B125(12.5T)  |

UNIT:MM

## Product Application

Note : The practical application of this Composite Manhole Chamber, covering many fields such as municipal administration, electric power,electricity, water , road administration,and drainage.

On each side of the product. The size of the drill hole can be adjusted at the construction site according to the actual size of the HDPE Silicon Pipe/HDPE Micro-duct.

## Ordering Information

FCST-TH-SMC04--

A

B

**B-** Cover Load Grade  
 B1 A15(1.5T)  
 B2 B125(12.5T)  
 ... Customized

**A-** Stacking Height  
 A1 1 Layer(Standard)  
 A2 2Layers  
 A3 3 Layers

## Fiber Cable Solution Technology Co.,Ltd.

### FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
