FCST-CR120-ELB45-CVR 45° Horizontal Elbow Cover

The 45° horizontal elbow cover is a protective panel designed specifically for use with the 45° horizontal elbow raceway section. It covers the cables at the horizontal turn, encloses the routing channel, and protects the internal fiber optic cables from external physical damage and environmental factors, while maintaining the overall neat and aesthetic appearance of the raceway system.

- Precise angles, smooth transition.
- Easy installation; efficient construction.
- Compliant with the UL94-V0 fire safety standard.
- Cover for 120mm fiber optic raceway 45° horizontal elbow.

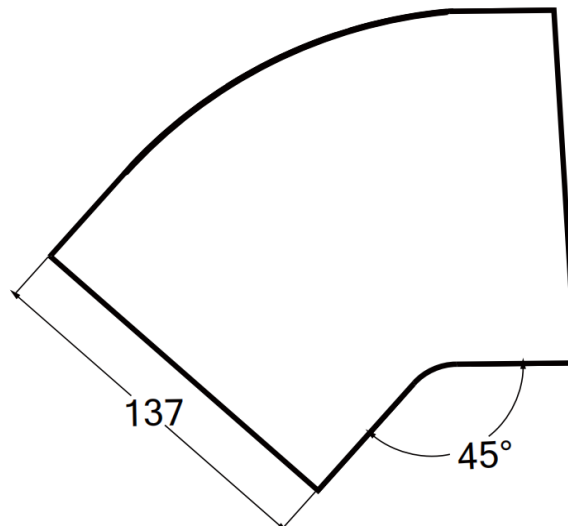

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	120PCS/CNT 12KG
Weight	100g

Product Structure

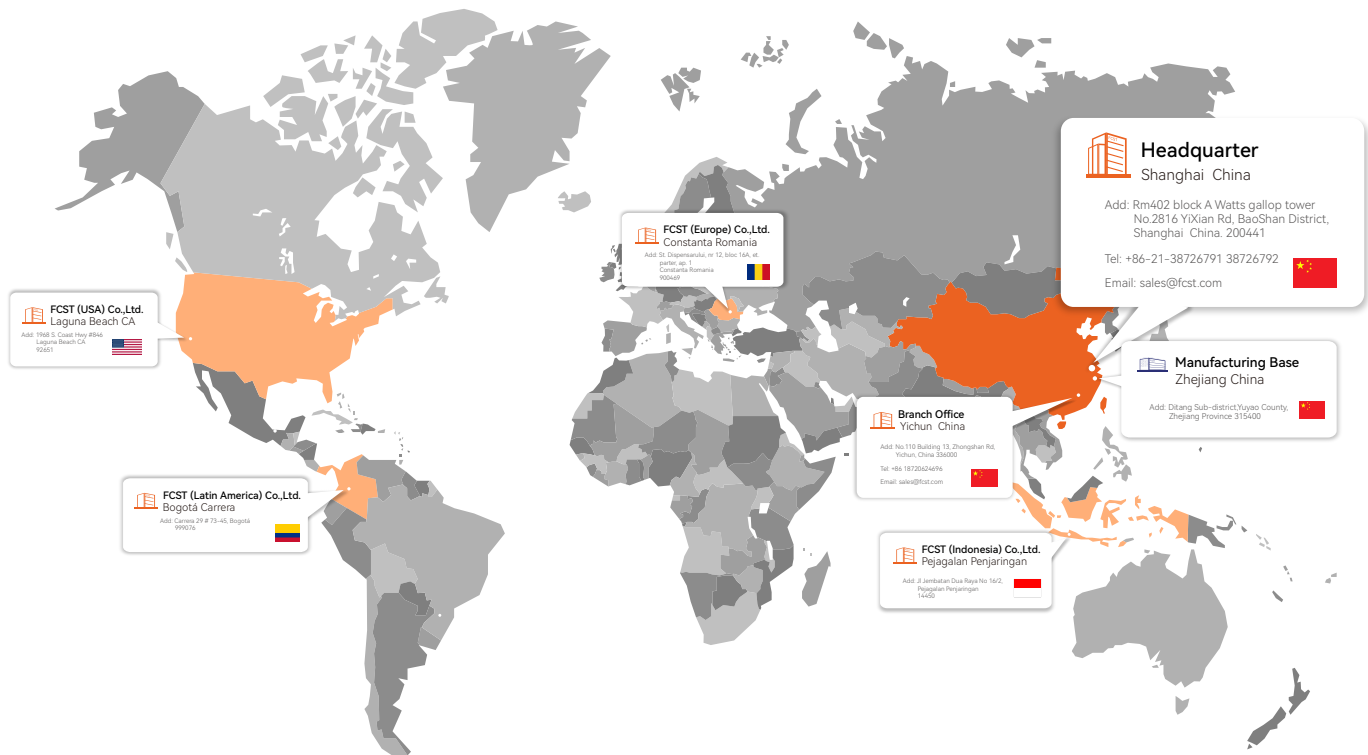

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
